Spanish for Professionals (SFP) | Español para profesionales (EPP)

SFP News is a space to share local, national and global events that are impacting our lives, communities and or professions. A great opportunity to share news and current topics related to our professions and to listen to our voices as we participate recording videos, posting in the discussions boards, news room meetings in 2nd Life, and with Wimba virtual tools.

Students will narrate, discuss, and report on past and current events that are tied to the topics covered in the SFP Modules.

Students will work on their speaking and listening skills to at least the Intermediate mid to high as established by ACTFL Proficiency Guidelines. See syllabus for additional details.

The SFP News Room/Channel correspond to the following Course Objectives (2, 3 and 4):

2. Elaborate, complain, and apologize in social and work settings.

3. Narrate and describe matters with some detail.

4. Communicate facts and talk casually about topics of current public and personal interest.
