The following is a list of major items that we have covered in Chapter 21. IMPORTANT NOTE: This list is not exhaustive. You are responsible for everything we have covered in lecture. Use this list to make sure your notes are complete. DO NOT use this sheet as your only means of studying for the exam.

Lumen
Tunica interna, externa, media
Elastic & Muscular Arteries
Anastomoses
Arterioles
Continuous, Fenestrated, Sinusoid Capillaries
Venules
Veins
Venous Return
Vasoconstriction/ Vasodilation
Systemic route
Pulmonary route
Hepatic-portal route
Fetal circulation
Blood vessels from heart to L or R fingers
Blood vessels from L or R fingers to heart
Blood vessels from heart to L or R toes
Blood vessels from L or R toes to heart
Ascending Aorta and branches
Aortic arch and branches
Thoracic aorta and branches
Abdominal aorta and branches
Veins with no arterial counterpart
Blood flow
Determinants of resistance
Determinants of blood pressure
Forces of capillary exchange
Effective filtration pressure
Starling's Law of capillary exchange
Shock-types and stages
Hypertension-primary and secondary
Aneurysm
Atherosclerosis
